

Oct-Dec 2021

In Next Engineers' first quarter, we launched *Engineering Discovery* in **3 locations**

Engineering Discovery inspires 13-14 year olds to explore what engineers do through short, hands-on activities.

PROGRAM REACH

Next Engineers conducted **22 Discovery events** in **12 schools**

2,128 students participated in Discovery activities

GE volunteers helped facilitate events **112 times**

PROGRAM IMPACT

92% said they enjoyed the event

80% reported that they learned something

52.5% report wanting to learn more

“ I liked how we used different supplies and worked together to make the building taller.

“ I learned how to build things better and that it is better to talk to people instead of keeping ideas to myself.

“ I liked that it was a hands-on experience. I also like working with a group and not having too many rules to follow so that we could be creative.
