

# Facilitator & Volunteer Newsletter

December 2022

Watch

## Engagement Toolbox

Tips and strategies to increase student participation.

### Maximizing Group Work with a Tactical Pause from Edutopia

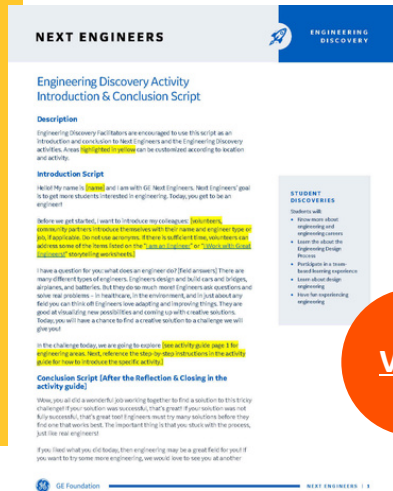

Use this strategic time-out during group work in the Academy, Camp, or Discovery sessions to redirect or celebrate students' work and clarify the task you've given them.

## Resource Spotlight

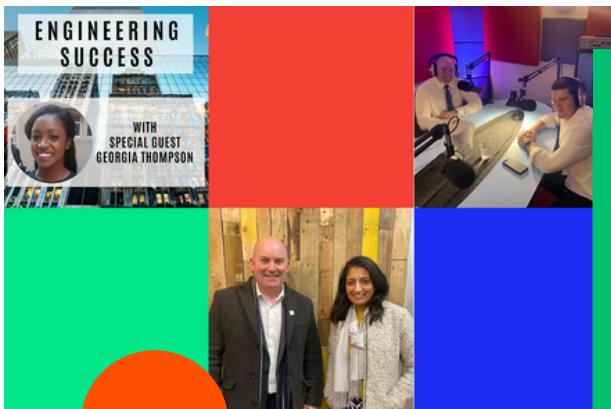

Highlighting a new or existing Next Engineers resource. Log in to your NextEngineers.org account to access all the resources.

### Engineering Discovery Intro and Conclusion Script

Discovery Facilitators are encouraged to use this script as an introduction and conclusion to the hands-on activities and demonstrations. The highlighted portions can be customized and will help to illuminate the connection between the activity and engineering careers.

## The Latest Read

Articles and blogs that illuminate a topic within engineering and STEM education.

### Engineering Success Podcast

Instead of an article, we're sharing a podcast series that may be of interest to you and your learners! Engineering Success is a UK podcast dedicated to the engineering industry and careers in other STEM-related fields. Listen as host Jaemie Hutton interviews diverse engineers from across the field.
