

## Networking BINGO<sup>1</sup>

Networking is using your communication and interpersonal skills to make connections with others. In this activity, you will network with your peers to find common interests and experiences.

1. Respond to each prompt by writing your response on the “Me” line in each box.
2. Your facilitator will tell you how much time you have to complete the grid.
3. Talk with your peers and identify individuals that have the same response for each box. When you find someone that matches your response, write their name in the box.

### Rules:

- Write only **one** name per box, even if multiple students share the same characteristic.
  - You may only write a person’s name **one** time in the grid.
  - You can talk to **one** person at a time.
4. Yell out “BINGO!” when all the blank spaces are filled.

## Reflection Questions

Discuss the questions below with a partner:

- How could people who share your interests help you make good educational and career choices?
- Who would be the most beneficial connection on your grid? Why?
- How might a “fun” connection like favorite hobby or animal help in your career development?
- Can social media, like Instagram or TikTok, help us network? If so, how? Can it hurt our networking opportunities?
